

Service Additives – Diesel System

Version: SA9/02

Valvoline™ DPF Cleaner and Regenerator

Special additive package to lower the burn-off temperature of soot in the diesel particulate filter. This enables burning off soot from the particulate filter during normal operation to allow in-situ regeneration of the diesel particulate filter.

Applications

Suitable for all diesel engines equipped with OEM or aftermarket diesel particulate filter (DPF).

Apply as a preventive measure to keep the DPF operation optimal. Especially effective when driving conditions are unfavorable (e.g. short distance city driving, traffic jams, stop/start driving)

The DPF Cleaner and Regenerator is recommended to be used after specialized cleaning repairs on the DPF have been performed.

Operating instructions

Add to diesel tank. Recommended use is approximately 1 metal bottle (300 ml) on 40-80 L diesel fuel. For the optimum result repeat every third tankful.

Minimal tank content: 10 L of diesel.

Important Note:

Do not overdose.

Do not use in vehicles that are equipped with an OEM additive system using AdBlue or similar, like some models of Renault, Peugeot, Citroen, VW, Audi, BMW, MB, Opel, Ford, Toyota or Mazda.

Features & Benefits

Keeps DPF in good condition

A good operating DPF is crucial for engine performance and exhaust emissions.

Especially when driving conditions are unfavorable.

Prevents high maintenance costs

Maintaining DPF performance prevents costly cleaning operations or repairs.

Easy to use

Application through simply adding it to the diesel fuel. No specialist tools or equipment required.

PRODUCT INFORMATION

Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

For more information on Valvoline products, programs and services please visit www.valvolineeurope.com

Typical properties

Typical property characteristics are based on current production. Whilst future production will conform to Valvoline specifications, variations in these characteristics may occur.

Diesel DPF Cleaner and Regenerator	
Appearance	Brown
Specific Gravity @ 20°C	0,818
Flash Point, °C	47

This information only applies to products manufactured in the following location(s): Europe

Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://msds.valvoline.com>

Protect the environment

Take used chemical to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage

We recommend to store all packages under cover. Keep container tightly closed and stored in a cool, dry and well ventilated place. Products should be stored inside and do not exposed to direct sunlight and high temperatures. Avoid freezing conditions.
